Portfolio manager comments — Q2 2024

Fund performance was positive during Q2 and the fund rose close to 2% in SEK. The holding in Nibe was weighed down by the weak market for heating pumps in Europe due to persistently high inventories in the distribution chain, declining gas prices and lower subsidies. The inventory situation should be rebalanced during the end of the year and there is a further need for energy transition that is assisted by effective climate solutions over the long term. Fund returns were also weighed down by the holding in the installation company Bravida when an incident of over-billing by one of the company's businesses was reported and confirmed. We have a close dialogue with management regarding the company's measures to strengthen internal routines and processes, which will be followed up.

Largest holdings

Novo Nordisk A/S Class B	8.56%
Volvo AB Class B	5.57%
Essity AB Class B	5.43%
Hexagon AB Class B	5.37%
Skandinaviska Enskilda Banken AB Class A	5.19%
AstraZeneca PLC	4.70%
Assa Abloy AB Class B	4.40%
KONE Oyj Class B	4.20%
Beijer Ref AB Class B	4.07%
Sandvik AB	4.05%

The significant holdings in Volvo and Sandvik also weighed on returns, while ABB and Sweco contributed positively. Pharmaceutical and financial companies such as Novo Nordisk, AstraZeneca, Topdanmark and SEB were the strongest contributors to returns. Both Novo Nordisk and AstraZeneca held capital market days during the spring and had positive outlooks. Topdanmark received an acquisition bid from Sampo. During the quarter the fund added a new holding in Danish Coloplast, a global medical technology company with a leading position within ostomy and incontinence care, as well as global operations within wound care and urology. We decreased positions primarily in Novo Nordisk, DNB and AstraZeneca after strong share price performance. The smaller holdings in Thule and Indutrade were sold, primarily due to valuations. For the upcoming reporting period we will continue to focus on investee companies that have sustainable business models and competitive offers with sustainable growth even in a weaker economy.
