

FUND RULES FOR HANDELSBANKEN AUTO 50 CRITERIA

§ 1

The fund's legal status

The fund's name is Handelsbanken Auto 50 Criteria. The fund is a special (non-UCITS) fund in accordance with the Alternative Investment Fund Managers Act (2013:561) and targets the general public.

The fund targets the general public and consists of financial instruments that are purchased with the capital provided to the fund by those investing capital in it and, thereby, are mutual shareholders in the fund. The fund may not acquire rights, assume liabilities, or lodge an appeal before a court of law or any other authority. Assets included in a fund may not be seized and fund unit holders are not held accountable for the liabilities of the fund. The Management Company represents the fund unit holders in questions regarding the fund, takes decisions regarding the assets included in the fund, and exercises those rights that arise from the fund. One fund unit is a right to as large of a share in a securities fund that is equivalent to the fund's net capital divided by the number of outstanding units. However, given that the fund includes share classes, the value of a fund unit is determined by taking into consideration those conditions associated with each share class (see below).

The fund consists of the following share classes:

- A) Accumulation (non-distribution) share class, traded in SEK (A1 SEK)
- B) Distribution share class, traded in SEK (B1 SEK)
- C) Accumulation (non-distribution) share class with a minimum initial subscription and specific conditions for distribution, traded in SEK (A9 SEK)

The fund consists of share classes, which means that the value of a fund unit in one share class will differ from the value of a fund unit in another share class. The share classes differ with regard to the limit for the minimum initial subscription, currency, fees, distribution and specific conditions for distribution (refer further in §§ 9, 11 and 12). The units within each share class are of equal size and result in equivalent rights to the assets included in the fund.

The conditions for the various share classes apply to the investors, regardless of whether the holdings are registered directly or held in trust at the Management Company. The entity that distributes the share class to the investor is responsible for ensuring that the investor fulfils the conditions of the share class.

Alternative conditions are applicable to share classes with specific conditions for distribution.

This means, for example, that the value of the units held by an investor within the scope of regular investment advisory services, alternatively portfolio management, may not be credited to the investor when the size of the initial minimum subscription is calculated within the share class.

A unit holder may not concurrently fulfil the conditions for two different share classes while using the same assets. In the case where a unit holder meets the conditions in a share class with specific conditions for distribution, the unit holder's units will be allocated to that share class. In the case where a unit holder no longer fulfils the specific conditions for distribution in a share class, the unit holder's units will be allocated to a share class without specific conditions for distribution. All of the allocations are made without making changes to the conditions for distribution or currency. The above applies regardless if the unit holder's holdings are registered directly or held in trust (in one or several stages) at the Management Company.

For a more comprehensive explanation of the designations stated above (e.g., A1 SEK, etc.), the Management Company makes reference to the prospectus. Further explanatory information is also available with regard to the conditions for the share classes.

§ 2

Management Company

The fund is managed by Handelsbanken Fonder AB, with organisation registration number 556418-8851, referred below as the "Management Company".

§ 3

The Depositary and its duties

The fund's assets are held in the custody of J.P. Morgan SE - Stockholm bank branch, with organisation registration number 516406-1110, which serves as the Depositary. The Depositary will execute the decisions of the Management Company that are not in conflict with the Swedish Investment Funds Act or the rules of the fund. Further, the Depositary will receive and hold the assets included in the fund, as well as ensure that:

1. the sale and redemption of units occur according to the law and fund rules,
2. the value of the fund units are estimated according to the law and fund rules,
3. the assets in the fund reach the Depositary without delay, and
4. the assets in the fund are utilized according to the law and fund rules.

§ 4

The fund's character

The fund is a rules-based fund and its objective is to offer a pre-determined allocation (target weightings) by investing in a limited number of funds, including equity and fixed income funds, in accordance with § 5 below with a minimum quarterly rebalancing of the target weightings. A rule-based fund refers to a fund with a pre-determined allocation between equity and fixed income exposure and in which changes to the relative weighting in the holdings occur almost exclusively to restore the fund's holdings to the pre-determined target weightings.

§ 5

The fund's investment focus

The fund's assets may be invested:

- in transferable securities,
- in money market instruments,
- in derivative contracts,
- in fund units, and
- in an account at a credit institution.

Underlying assets to derivative instruments may constitute or be related to

- such assets as stated in Chapter 5, § 1, second paragraph, first sentence in the Swedish Investment Funds Act,
- financial indices,
- interest rates,
- exchange rates, or
- foreign currencies.

The fund is a mixed fund in which the equity exposure is attained primarily through investments in funds with exposure to the Nordic and global equity markets. The fixed income exposure is attained primarily through investments in funds with exposure to the Swedish fixed income market. There are no restrictions to the investments with regard to sector or company size.

Seventy-five percent of the fund's value shall be invested in equity-related securities and equity funds (target weighting of equity exposure), of which a minimum of 70 percent shall be made in equity funds and 25 percent in interest-related securities and fixed income funds with exposure to the Swedish fixed income

market (target weighting of fixed income exposure), of which a minimum of 20 percent shall be in fixed income funds. Fund holdings are rebalanced to correspond to the target weightings in conjunction with the turn of each quarter (February/March, May/June, August/September, November/December). In the event fund holdings are below or exceed any of the target weightings by +/- 2.5 percent between the quarterly rebalancing periods, the fund's holdings will be rebalanced to correspond to the target weightings.

Fifty percent of the target weighting in the equity exposure shall consist of funds/equity-related securities with exposure to the global equity markets and 50 percent shall consist of funds/equity related securities with exposure to the Nordic equity markets (target weighting of geographic equity exposure). Fund holdings are rebalanced to correspond to the target weighting for the geographic equity exposure in conjunction with the turn of each quarter (February/March, May/June, August/September, November/December). In the event fund holdings are below or exceed the geographic target weighting by +/- 2.5 percent between the quarterly rebalancing periods, the fund's holdings will be rebalanced to correspond to the geographic target weighting (50 percent).

Substantially all of the fund's investments will be made in a limited number of funds and collective investment undertakings. Investments in funds or collective investment undertakings associated with the Handelsbanken Group will total a minimum of 90 percent of the fund's value.

Within the scope of the fund's investment focus it is ensured that the underlying funds take international standards and guidelines into consideration with regard to the environment, social responsibility and governance in its fund management. Criteria are also applied for companies with operations in the fossil fuels, weapons, tobacco, alcohol, gaming and pornography segments/sectors. Further information is available in the fund's prospectus. To manage liquidity, investments may be made in exchange-traded funds (ETFs) that do not meet the sustainability requirements stated above (however, these are limited to a maximum of 5 percent of the fund's value).

In accordance with Chapter 12, § 13, second paragraph of the Alternative Investment Fund Managers Act (2013:561) and by means of an exception from Chapter 5, § 16, first paragraph of the Swedish Investment Funds Act (2004:46), the fund may invest in units of one and the same fund or in one and the same collective investment undertaking to a maximum of 50 percent of the fund's value.

The collective investment undertakings referred to above also refer, as appropriate, to sub-funds.

The risk measurement applied to the fund is the standard deviation of the returns, i.e., the fund's total risk. This can vary, although given the pre-determined allocation, the standard deviation over a rolling 12-month period is projected to be 5-13 percent. However, the total risk in the fund can be below as well as above this interval during shorter periods.

§ 6

Markets

The fund's purchase and sale of fund units can take place directly from each respective fund management company, trustee company, collective investment undertaking or AIF manager. The purchase and sale of other financial instruments and exchange-traded funds (so-called ETFs) may occur in a regulated market or equivalent market outside EEA as well as other markets, within or outside EEA, that are regulated and open to the general public as well as on MTFs or similar marketplaces.

§ 7

Specific investment focus

Fund assets may be invested in such transferable securities and money market instruments as stated in Chapter 5, § 5 of the Swedish Investment Funds Act.

The fund may invest in derivative instruments as part of the fund's investment focus.

The fund may use such derivative instruments as stated in Chapter 5, § 12, second paragraph of the Swedish Investment Funds Act (so-called OTC derivatives).

The fund may use such techniques and instruments to increase returns and create leverage in the fund as stated in Chapter 25, § 21 of the Swedish Financial Supervisory Authority's regulations (FFFS 2013:9) regarding UCITS.

Due to the fund's investment focus, the fund invests a significant portion of assets in units of other securities funds, collective investment undertakings and non-UCITS funds, which results in the fund being a so-called fund of funds.

§ 8

Valuation

The fund's value is calculated by deducting those liabilities from the assets applicable to the fund.

The fund's assets include financial instruments and liquid assets, including short-term investments on the money market, as well as other assets in possession of the fund.

Financial instruments that are included in the fund are valued at the applicable market value. Preferably, market prices are used. If such prices are not available or if the prices are deemed to be misleading by the Management Company, the financial instruments will be valued according to those objective principles decided by the Management Company. The valuation on objective principles establishes a market value based on information for the most recent price paid or the indicative bid price from market makers, if such have been designated by the issuer. If this information is not available or is deemed to be unreliable, the market value is set using information from counterparties or other external sources. Liquid assets and current receivables (investments in an account at a credit institution, short-term investments on the money market as well as cash settlements for securities sold) are valued at the amount whereby they are expected to be received.

Transferable securities and money market instruments as stated in Chapter 5, § 5 in the Swedish Investment Funds Act are valued on the basis of an objectively based market value, which is set based on information about the latest price paid or indicative bid price from the market maker appointed for the issuer, if such has been designated by the issuer. If this information is not available or is not deemed reliable, the market value will be set with the assistance of an independent broker or other external independent sources.

If the market price at the valuation of OTC derivatives cannot be set in accordance with the aforementioned alternatives or it appears to be unreliable, the market value will be set based on generally-accepted valuation models, such as Black & Scholes.

In addition to liabilities arising as a result of the fund's operations, fund liabilities include future tax liabilities and management fees.

Given that the fund consists of share classes, the value of a fund unit will be determined in consideration of the conditions associated with each share class. The value of a fund unit in a share class within the fund consists of the value of the share class divided by the number of outstanding units in the share class in question.

§ 9

Subscription and redemption of fund units

The subscription and redemption price, respectively, for a fund unit amounts to the fund unit's value calculated according to § 8 on the day of the subscription or redemption.

The subscription of new units and redemption of outstanding fund units may occur every banking day at the Management Company through one of the Svenska Handelsbanken branch offices, as well as through the Management Company's website on the Internet, in accordance with those rules and directives obtained from the Management Company.

Banking day refers to a day that is not Saturday, Sunday or another public holiday, or in connection with a payment of a promissory note, on a day that is not equal to a public holiday and when the banks in Sweden are generally open to the public.

However, the fund is not open for subscription and redemption on those banking days where valuation of the fund's assets is unable to be conducted in such a way that it ensures that the rights of the fund unit holders are treated equally, e.g., as a result of the total or partial closure of one or several markets in which the fund conducts trading.

The Management Company normally calculates the fund's net asset value each banking day. The Management Company does not calculate the net asset value if the fund is closed for subscription and redemption with regard to the conditions stated in these fund rules and in § 10. When a request for subscription or redemption is received on a day in which the fund is closed for subscription and redemption, the fund's net asset value is normally set on the subsequent banking day.

The subscription and redemption occur on an occasion when the fund unit holder's request for subscription or redemption is at an unknown fund unit price.

Information about the latest set price for a fund unit can be obtained every banking day at the Management Company or through one of Svenska Handelsbanken's branch offices as well as every day via the Management Company's website on the Internet.

The request for subscription or redemption may be cancelled only if the Management Company permits it.

The fund consists of the following share classes:

A) Accumulation (non-distribution) share class, traded in SEK (A1 SEK)

There is no minimum subscription limit stated for the share class. The subscription and redemption of units in the share class are in SEK.

B) Distribution share class, traded in SEK (B1 SEK)

There is no minimum subscription limit stated for the share class. The subscription and redemption of units in the share class are in SEK.

C) Accumulation (non-distribution) share class with a minimum initial subscription and specific conditions for distribution, traded in SEK (A9 SEK)

The share class is only open for investors who

- within the scope of a written agreement for such regular (ongoing) investment advice as stated in Chapter 9, § 17, item 3 in the Securities Market Act (2007:528) or comparable Swedish or foreign regulation, invest in the share class and where there is no distribution remuneration from the Management Company, whereby the investor instead pays the investment advisor for the investment advice,
- within the scope of a written agreement for portfolio management in accordance with the Securities Market Act (2007:528) or comparable Swedish or foreign regulation, invest in the share class and where there is no distribution remuneration from the Management Company, whereby the investor instead pays the portfolio manager for asset management, or
- invest ten million Swedish crowns (SEK 10,000,000) in the minimum initial subscription in the share class and where there is no distribution remuneration or repayment of a portion of the management fee paid to the investor by the Management Company.

The share class is also open to life insurance companies in which the customer (the policyholder) has concluded an agreement for investment advisory services as referenced above and where there is no distribution remuneration paid to the advisor from the Management Company. Instead, the customer pays the advisor for advisory services and investments are made through endowment insurance (kapitalförsäkring) with custody management in which the customer is the policyholder in relation to the life insurance company in question.

The share class is also open to life insurance companies in which the customer (the policy holder) has entered into the aforementioned agreement with regard to portfolio management and where there is no distribution remuneration paid from the Management Company to the portfolio manager, rather the customer instead pays the portfolio manager for asset management. The investments are made through a policy with fund or custodial management and in which the customer is the policy holder in reference to the life insurance company in question.

The subscription and redemption of units in the share class are in SEK.

§ 10

Exceptional circumstances

The fund may be closed for the subscription and redemption of fund units in the event exceptional circumstances have occurred, whereby the value of the fund's assets cannot be calculated in such a way as to guarantee the equal treatment of the fund unit holders.

§ 11

Fees and remuneration

Fees are payable to the Management Company from fund assets for fund management, marketing, and administration of the fund. The fees are calculated daily based on the fund's value, are allocated for each share class and may be a maximum of the remuneration stated below under each share class. The fees include costs for custody, supervision, and auditing.

Expenses for brokerage fees, taxes, etc. are paid from the fund for the purchase and sale of financial instruments.

Applicable value-added tax will be added to the fees stated above on each occasion.

The fund's prospectus includes information about the highest fixed and performance-based remuneration that may be paid for the management of the securities funds and equivalent collective investment undertakings, non-UCITS funds and AIFs in which fund assets have been invested.

Share classes A) and B):

Remuneration to the Management Company may be a maximum of 0.6 percent annually.

Share class C):

Remuneration to the Management Company may be a maximum of 0.3 percent annually.

§ 12

Distribution

The fund does not make any distributions in the share classes A) and C).

Dividends are distributed in the share class B). The Management Company determines the amount of the distribution to be paid to fund unit holders in the distribution share class on an annual basis. Distributions are based on the return (such as dividends, interest income, changes in value) in the distribution share class or another distributable amount. The distribution may be set at a higher or lower amount than the returns of the share class. Refer to the prospectus for further information about the objectives with regard to the size of the distribution. Distributions are made between the months of March and May each year. The Management Company may make the decision for an extraordinary dividend during the year if it is deemed to be in the best interest of the fund unit holders. Dividends are paid to the fund unit holders who are registered for distribution fund units as of the record date decided by the Management Company. The distribution impacts the relationship between the value of accumulation units (non-distribution) and the value of the distribution units, with the value of the distribution units decreasing in relation to the size of the distribution.

§ 13

Financial year

The financial year for the Management Company and the fund is the calendar year.

§ 14

Semi-annual review and annual report, amendments to fund rules

The Management Company must submit an annual report about the fund within four months of the end of the financial year. The annual report will be sent to the Financial Supervisory Authority and will be sent free-of-charge to all fund unit holders who have requested its receipt. In addition, the annual report will be made available at the Management Company and Custodian Institution.

The Management Company must submit a semi-annual review of the fund's first six months within two months of the end of the mid-year. The semi-annual review will be sent to the Financial Supervisory Authority and will be sent free-of-charge to all fund unit holders who have requested its receipt. In addition, the semi-annual review will be made available at the Management Company and Custodian Institution.

Should the Management Company's Board of Directors decide to make an amendment to the rules of the fund, the decision will be submitted to the Financial Supervisory Authority for its approval.

The Management Company will make the amendment public in the upcoming annual report or semi-annual review and any other way the Financial Supervisory Authority decides. The amendment must also be made available at the Management Company and Custodian Institution.

§ 15

Pledge of fund units

If the fund unit holder mortgages fund units in his possession, the fund unit holder (mortgagor) and/or the mortgagee must notify the Management Company in writing about the pledge. The notification must include the following information:

1. the name of the fund unit holder/mortgagor,
2. the name of the mortgagee,
3. the number of fund units and which classes are included in the scope of the pledge
4. any limitations in the scope of the pledge.

The mortgagor must sign the notification.

The Management Company will include the information regarding the pledge in the unit holder register.

The fund unit holder will be notified in writing that the register has been updated to include the information that his fund units have been pledged. When the pledge has terminated, the Management Company will remove the information from the register after it has been notified by the mortgagee.

§ 16

Liability limitations

In accordance with Chapter 8, §§ 28-31 of the Alternative Investment Funds Managers Act, the following is applicable. If a fund unit holder sustains a loss as a result of the Management Company violating the Alternative Investment Funds Managers Act or the fund rules, the Management Company shall compensate the loss.

In accordance with Chapter 9, § 22 of the Alternative Investment Funds Managers Act it is stated that the regulations in Chapter 3, §§ 14-16 of the Swedish Investment Funds Act (2004:46) shall be applicable to custodian institutions for non-UCITS funds.

If the Custodian Institution or the institution that holds the financial instruments in custody on behalf of the Custodian Institution have lost financial instruments, the institution shall return financial instruments of the same type or pay an amount of equivalent value to the Management Company on behalf of the securities fund without undue delay pursuant to the Swedish Investment Funds Act, Chapter 3, § 14. The Custodian Institution is not liable for compensation pursuant to the above if the institution can prove that the loss has

arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

If the fund unit holder incurs damages other than those stated in the previous paragraph as a result of the Custodian Institution or a subcontractor intentionally or through negligence violates the law or other statutes that regulate the business operations, the institution shall compensate for damages in accordance with Chapter 3, § 15 of the Swedish Investment Funds Act. In accordance with Chapter 3, § 16 of the Swedish Investment Funds Act, a service contract regarding the custody of assets and control of ownership pursuant to Chapter 3, § 6 of the Swedish Investment Funds Act does not absolve the Custodian Institution from its liability for losses and other damages in accordance with the Swedish Investment Funds Act. This is also applicable even if the service contractor subcontracts the assignment to another contractor in accordance with the Swedish Investment Funds Act.

While respecting the provisions in Chapter 8, §§ 28-31, Chapter 9, § 22 in the Alternative Investment Funds Managers Act, in comparison to Chapter 3, §§ 14-16 of the Swedish Investment Funds Act, the following is applicable:

With regard to all of the incoming measures taken by the Custodian Institution and the Management Company, the Custodian Institution and the Management Company shall not be liable for damages due to Swedish or foreign statutes, measures taken by Swedish or foreign authorities, event of war, strike, blockade, boycott, lockout or other similar circumstances. The reservation concerning strike, blockade, boycott, and lockout also applies if the Custodian Institution and/or Management Company is subject to or takes such conflict measures.

Other damages sustained by the fund unit holder shall not be compensated by the Custodian Institution and/or Management Company unless the Custodian Institution and/or Management Company willfully or negligently caused such damages. The Custodian Institution and/or Management Company shall not be liable under any circumstance for indirect damages.

The Custodian Institution/Management Company shall not be liable for damages resulting from a Swedish or foreign stock market or other market place, depository bank, central securities depository or other processor, clearinghouse, or other parties that provide comparable services. Nor shall the Custodian/Management Company be liable for damages resulting from a contractor retained by the Custodian Institution/Management Company with due diligence or, with regard to the Custodian Institution, that has been assigned by the Management Company. The aforementioned also applies to damages resulting from the insolvency of the organisations or contractors mentioned.

The Custodian Institution is not liable for damages to the Management Company or fund unit holders in the fund that may arise as a consequence of restrictions on the right of disposition of securities that may be applied against the Custodian Institution.

If obstacles exist that prevent the Custodian Institution and/or the Management Company from effecting payments or taking other measures due to the circumstances mentioned in the sixth paragraph, the measures may be postponed until the obstacles have ceased. In the event of deferred payments, the Custodian Institution/Management Company shall pay interest, if interest is promised, in accordance with the interest rate applicable on the due date. If interest is not promised, the Custodian Institution or the Management Company is not obliged to pay interest at a higher rate of interest than that which is equivalent to the applicable reference rate set by the Swedish Riksbank pursuant to § 9 of the Interest Act (1975:635), supplemented by two percentage points for each occurrence.

If the Custodian Institution and/or the Management Company, as a result of the circumstances mentioned in the sixth paragraph, are prevented from accepting payment, the Custodian Institution and/or the Management Company has the right to interest only in accordance with those conditions that applied on the due date for that period during which the obstacle existed.

§ 17

Permitted investors, etc.

The fund targets the public with the following limitations. The fund does not target such investors whose subscription or fund unit holdings result in or present a risk for (i) violation of Swedish or foreign law or other

regulations, (ii) the fund or the Management Company being subject to registration obligations or other measures that the fund or the Management Company would not otherwise be obliged to undertake, or (iii) the fund being subject to substantial costs that are not in the interest of the unit holders. The fund does not target physical persons residing in the U.S. or legal persons headquartered in the U.S. or other U.S. Persons (such as a U.S. Person as defined in the U.S. Regulation S of the Securities Act of 1933, in the version applicable at the relevant time). In the event the Management Company determines that an investor is not permitted to subscribe to or hold units in the fund in accordance with the limitations stated in this paragraph, the Management Company may refuse the subscription of units as well as redeem units without prior consent on behalf of the investor. Refer to the fund's Prospectus for additional information regarding permitted investors.
