

FUND RULES FOR HANDELSBANKEN AUTO 100 CRITERIA

§ 1

The fund's legal status

The fund's name is Handelsbanken Auto 100 Criteria. The fund is a special (non-UCITS) fund in accordance with the Alternative Investment Fund Managers Act (2013:561) and targets the general public.

The fund targets the general public and consists of financial instruments that are purchased with the capital provided to the fund by those investing capital in it and, thereby, are mutual shareholders in the fund. The fund may not acquire rights, assume liabilities, or lodge an appeal before a court of law or any other authority. Assets included in a fund may not be seized and fund unit holders are not held accountable for the liabilities of the fund. The Management Company represents the fund unit holders in questions regarding the fund, takes decisions regarding the assets included in the fund, and exercises those rights that arise from the fund. One fund unit is a right to as large of a share in a fund that is equivalent to the fund's net capital divided by the number of outstanding units. However, given that the fund includes share classes, the value of a fund unit is determined by taking into consideration those conditions associated with each share class (see below).

The fund consists of the following share classes:

- A) Accumulation (non-distribution) share class, traded in SEK (A1 SEK)
- B) Accumulation (non-distribution) share class, traded in EUR (A1 EUR)
- C) Accumulation (non-distribution) share class, traded in NOK (A1 NOK)
- D) Distribution share class, traded in SEK (B1 SEK)
- E) Distribution share class, traded in EUR (B1 EUR)

The fund consists of share classes, which means that the value of a fund unit in one share class will differ from the value of a fund unit in another share class. The share classes differ with regard to distribution (refer further in §§ 9 and 12). The units within each share class are of equal size and result in equivalent rights to the assets included in the fund.

The conditions for the various share classes apply to the investors, regardless of whether the holdings are registered directly or held in trust at the Management Company. The entity that distributes the share class to the investor is responsible for ensuring that the investor fulfils the conditions of the share class.

For a more comprehensive explanation of the designations stated above (e.g., A1 SEK, etc.), the Management Company makes reference to the prospectus.

§ 2

Management Company

The fund is managed by Handelsbanken Fonder AB, with organisation registration number 556418-8851, referred below as the "Management Company".

§ 3

The Depositary and its duties

The fund's assets are held in the custody of J.P. Morgan SE - Stockholm bank branch, with organisation registration number 516406-1110, which serves as the Depositary. The Depositary will execute the decisions of the Management Company that are not in conflict with the Swedish Investment Funds Act or the rules of the fund. Further, the Depositary will receive and hold the assets included in the fund, as well as ensure that:

1. the sale and redemption of units occur according to the law and fund rules,

2. the value of the fund units are estimated according to the law and fund rules,
3. the assets in the fund reach the Depositary without delay, and
4. the assets in the fund are utilized according to the law and fund rules.

§ 4

The fund's character

The fund is a rules-based fund and its objective is to offer a pre-determined allocation (target weightings) in accordance with § 5 below with a minimum quarterly rebalancing of the target weightings. A rule-based fund refers to a fund with a pre-determined allocation of equity exposure and in which changes to the relative weighting in the holdings occur almost exclusively to restore the fund's holdings to the predetermined target weightings. To attain the pre-determined equity and fixed income exposures, the investments may be made in both equity and fixed income funds as well as in equity and interest-related securities (see further in § 5).

§ 5

The fund's investment focus

The fund's assets may be invested:

- in transferable securities,
- in money market instruments,
- in derivative contracts,
- in fund units, and
- in an account at a credit institution.

Underlying assets to derivative instruments may constitute or be related to

- such assets as stated in Chapter 5, § 1, second paragraph, first sentence in the Swedish Investment Funds Act,
- financial indices,
- interest rates,
- exchange rates, or
- foreign currencies.

Fund assets shall be invested in equity-related securities and funds with exposure to the Nordic and global equity markets. There are no restrictions to the investments with regard to sector or company size.

The target weighting for equity-related securities is 75 percent of the fund's value (target weighting of equity exposure), as well as 25 percent of the fund's value for interest-related securities (target weighting of fixed income exposure). Fund holdings are rebalanced to correspond to the target weighting for the geographic equity exposure in conjunction with the turn of each quarter (February/March, May/June, August/September, November/December). In the event fund holdings are below or exceed the geographic target weighting by +/- 2.5 percent between the quarterly rebalancing periods, the fund's holdings will be rebalanced to correspond to the geographic target weighting.

The fund's investments may occur in a limited number of funds and collective investment undertaking. Within the fund's investments in funds, a minimum of 90 percent of the investments will consist of funds or collective investment undertakings linked to the Handelsbanken Group.

The fund's investments in funds as well as in individual securities adhere to Handelsbanken Fonder's principles for responsible investment and sustainability criteria decided by the Management Company. More detailed information on Handelsbanken Fonder's principles for responsible investment and the fund's sustainability criteria is available in the prospectus.

The fund's base currency is SEK.

In accordance with Chapter 12, § 13, second paragraph of the Alternative Investment Fund Managers Act (2013:561) and by means of an exception from Chapter 5, § 16, first paragraph of the Swedish Investment Funds Act (2004:46), the fund may invest in units of one and the same fund or in one and the same collective investment undertaking to a maximum of 50 percent of the fund's value.

The fund may, with support of Chapter 12, paragraph 13 section 2 (2013:561) in the Alternative Investment Fund Managers Act and by means of an exemption from Chapter 5, paragraph 19 section 1 point 4 in the Swedish Investment Funds Act, invest a maximum of 50% of the fund's assets in fund units or collective investment undertakings.

The collective investment undertakings referred to above also refer, as appropriate, to sub-funds.

The risk measurement applied to the fund is the standard deviation of the returns, i.e., the fund's total risk. This can vary, although given the pre-determined allocation, the standard deviation over a rolling 12-month period is projected to be 7-17 percent. However, the total risk in the fund can be below as well as above this interval during shorter periods.

§ 6

Markets

The fund's purchase and sale of fund units can take place directly from each respective fund management company, trustee company, collective investment undertaking or AIF manager. The purchase and sale of other financial instruments and exchange-traded funds (so-called ETFs) may occur in a regulated market or equivalent market outside EEA as well as other markets, within or outside EEA, that are regulated and open to the general public as well as on MTFs or similar marketplaces.

§ 7

Specific investment focus

Fund assets may be invested in such transferable securities and money market instruments as stated in Chapter 5, § 5 of the Swedish Investment Funds Act.

The fund may invest in derivative instruments as part of the fund's investment focus.

The fund may use such derivative instruments as stated in Chapter 5, § 12, second paragraph of the Swedish Investment Funds Act (so-called OTC derivatives).

The fund may use such techniques and instruments to increase returns and create leverage in the fund as stated in Chapter 25, § 21 of the Swedish Financial Supervisory Authority's regulations (FFFS 2013:9) regarding UCITS.

Due to the fund's investment focus, the fund invests a significant portion of assets in units of other securities funds, collective investment undertakings and non-UCITS funds, which results in the fund being a so-called fund of funds.

§ 8

Valuation

The fund's value is calculated by deducting those liabilities from the assets applicable to the fund.

The fund's assets consist of:

- financial instruments that are valued according to the applicable market value. Market prices from an active market are primarily used. If such prices are not available or if the prices are deemed by the Management Company to be misleading, the financial instruments may be valued according to those objective principles decided by the Management Company. Such objective principles may include similar transactions that occurred under market conditions during the recent period, previous market prices for the instrument, market prices from a market maker or broker, or a so-called reference valuation,
- liquid assets,
- accrued interest,
- accrued distributions,

- non-liquidated sales, and
- other receivables related to the fund.

The fund's liabilities consist of:

- remuneration to the Management Company,
- non-liquidated purchases,
- tax liabilities, and
- other liabilities related to the fund.

The market value for such transferable securities and money market instruments as referenced in Chapter 5, §5 of the Swedish Investment Funds Act will be valued in accordance with a specific valuation in the event a price from the active market is not available. The specific valuation may also be based on the following: prices from a non-active market or observable prices from market makers or brokers, the acquisition value, recently completed transactions, corporate events that impact the market value, a reference valuation, discounted cash flows, and share capital from company equity.

The market value of OTC derivatives is set in accordance with a specific valuation in the event a price from the active market is not available. The specific valuation may also be based on the following: prices from a non-active market or observable prices from market makers or brokers, a reference valuation, a valuation based on the input assets/components' market value, or a value based on generally-accepted valuation models, such as Black & Scholes.

Given that the fund consists of share classes, the value of a fund unit will be determined in consideration of the conditions associated with each share class. The value of a fund unit in a share class within the fund consists of the value of the share class divided by the number of outstanding units in the share class in question.

§ 9

Subscription and redemption of fund units

The subscription and redemption price, respectively, for a fund unit amounts to the fund unit's value calculated according to § 8 on the day of the subscription or redemption.

The subscription of new units and redemption of outstanding fund units may occur every banking day at the Management Company through one of the Svenska Handelsbanken branch offices, as well as through the Management Company's website on the Internet, in accordance with those rules and directives obtained from the Management Company.

Banking day refers to a day that is not Saturday, Sunday or another public holiday, or in connection with a payment of a promissory note, on a day that is not equal to a public holiday and when the banks in Sweden are generally open to the public.

However, the fund is not open for subscription and redemption on those banking days where valuation of the fund's assets is unable to be conducted in such a way that it ensures that the rights of the fund unit holders are treated equally, e.g., as a result of the total or partial closure of one or several markets in which the fund conducts trading.

The Management Company normally calculates the fund's net asset value each banking day. The Management Company does not calculate the net asset value if the fund is closed for subscription and redemption with regard to the conditions stated in these fund rules and in § 10.

When a request for subscription or redemption is received on a day in which the fund is closed for subscription and redemption, the fund's net asset value is normally set on the subsequent banking day.

The subscription and redemption occur on an occasion when the fund unit holder's request for subscription or redemption is at an unknown fund unit price.

Information about the latest set price for a fund unit can be obtained every banking day at the Management Company or through one of Svenska Handelsbanken's branch offices as well as every day via the Management Company's website on the Internet.

The request for subscription or redemption may be cancelled only if the Management Company permits it.

The fund consists of the following share classes:

- A) Accumulation (non-distribution) share class, traded in SEK (A1 SEK)
The subscription and redemption of units in the share class are in SEK.
- B) Accumulation (non-distribution) share class, traded in EUR (A1 EUR)
The subscription and redemption of units in the share class are in EUR.
- C) Accumulation (non-distribution) share class, traded in NOK (A1 NOK)
The subscription and redemption of units in the share class are in NOK.
- D) Distribution share class, traded in SEK (B1 SEK)
The subscription and redemption of units in the share class are in SEK.
- E) Distribution share class, traded in EUR (B1 EUR)
The subscription and redemption of units in the share class are in EUR.

§ 10

Exceptional circumstances

The fund may be closed for the subscription and redemption of fund units in the event exceptional circumstances have occurred, whereby the value of the fund's assets cannot be calculated in such a way as to guarantee the equal treatment of the fund unit holders.

§ 11

Fees and remuneration

Fees are payable to the Management Company from fund assets for fund management, marketing, and administration of the fund. The fees are calculated daily based on the fund's value, are allocated for each share class and may be a maximum of the remuneration stated below under each share class. The fees include costs for custody, supervision, and auditing.

Expenses for brokerage fees, taxes, etc. are paid from the fund for the purchase and sale of financial instruments.

Applicable value-added tax will be added to the fees stated above on each occasion.

The fund's prospectus includes information about the highest fixed and performance- based remuneration that may be paid for the management of the securities funds and equivalent collective investment undertakings, non-UCITS funds and AIFs in which fund assets have been invested.

Share classes A), B), C), D) and E):

Remuneration to the Management Company may be a maximum of 0.6 percent annually.

§ 12

Distribution

The fund does not make any distributions in the share classes A), B) and C).

Dividends are distributed in the share classes D), and E). The Management Company determines the amount of the distribution to be paid to fund unit holders in the distribution share classes on an annual basis. Distributions are based on the return (such as dividends, interest income, changes in value) in the distribution

share classes or another distributable amount. The distribution may be set at a higher or lower amount than the returns of the share classes. Refer to the prospectus for further information about the objectives with regard to the size of the distribution. Distributions are made between the months of March and May each year. The Management Company may make the decision for an extraordinary dividend during the year if it is deemed to be in the best interest of the fund unit holders. Dividends are paid to the fund unit holders who are registered for distribution fund units as of the record date decided by the Management Company. The distribution impacts the relationship between the value of accumulation units (non-distribution) and the value of the distribution units, with the value of the distribution units decreasing in relation to the size of the distribution.

§ 13

Financial year

The financial year for the Management Company and the fund is the calendar year.

§ 14

Semi-annual review and annual report, amendments to fund rules

The Management Company must submit an annual report about the fund within four months of the end of the financial year. The annual report will be sent to the Financial Supervisory Authority and will be sent free-of-charge to all fund unit holders who have requested its receipt. In addition, the annual report will be made available at the Management Company and the Depositary.

The Management Company must submit a semi-annual review of the fund's first six months within two months of the end of the mid-year. The semi-annual review will be sent to the Financial Supervisory Authority and will be sent free-of-charge to all fund unit holders who have requested its receipt. In addition, the semi-annual review will be made available at the Management Company and the Depositary. Should the Management Company's Board of Directors decide to make an amendment to the rules of the fund, the decision will be submitted to the Financial Supervisory Authority for its approval.

The Management Company will make the amendment public in the upcoming annual report or semi-annual review and any other way the Financial Supervisory Authority decides. The amendment must also be made available at the Management Company and the Depositary.

§ 15

Pledge of fund units

If the fund unit holder mortgages fund units in his possession, the fund unit holder (mortgagor) and/or the mortgagee must notify the Management Company in writing about the pledge. The notification must include the following information:

1. the name of the fund unit holder/mortgagor,
2. the name of the mortgagee,
3. the number of fund units and which classes are included in the scope of the pledge
4. any limitations in the scope of the pledge.

The mortgagor must sign the notification.

The Management Company will include the information regarding the pledge in the unit holder register. The fund unit holder will be notified in writing that the register has been updated to include the information that his fund units have been pledged. When the pledge has terminated, the Management Company will remove the information from the register after it has been notified by the mortgagee.

§ 16

Liability limitations

In accordance with Chapter 8, §§ 28-31 of the Alternative Investment Funds Managers Act, the following is applicable. If a fund unit holder sustains a loss as a result of the Management Company violating the Alternative Investment Funds Managers Act or the fund rules, the Management Company shall compensate the loss.

In accordance with Chapter 9, § 22 of the Alternative Investment Funds Managers Act it is stated that the regulations in Chapter 3, §§ 14-16 of the Swedish Investment Funds Act (2004:46) shall be applicable to the Depositary for non-UCITS funds.

If the Depositary or the institution that holds the financial instruments in custody on behalf of the Depositary have lost financial instruments, the institution shall return financial instruments of the same type or pay an amount of equivalent value to the Management Company on behalf of the securities fund without undue delay pursuant to the Swedish Investment Funds Act, Chapter 3, § 14. The Depositary is not liable for compensation pursuant to the above if the institution can prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

If the fund unit holder incurs damages other than those stated in the previous paragraph as a result of the Depositary or a subcontractor intentionally or through negligence violates the law or other statutes that regulate the business operations, the institution shall compensate for damages in accordance with Chapter 3, § 15 of the Swedish Investment Funds Act. In accordance with Chapter 3, § 16 of the Swedish Investment Funds Act, a service contract regarding the custody of assets and control of ownership pursuant to Chapter 3, § 6 of the Swedish Investment Funds Act does not absolve the Depositary from its liability for losses and other damages in accordance with the Swedish Investment Funds Act. This is also applicable even if the service contractor subcontracts the assignment to another contractor in accordance with the Swedish Investment Funds Act.

While respecting the provisions in Chapter 8, §§ 28-31, Chapter 9, § 22 in the Alternative Investment Funds Managers Act, in comparison to Chapter 3, §§ 14-16 of the Swedish Investment Funds Act, the following is applicable:

With regard to all of the incoming measures taken by the Depositary and the Management Company, the Depositary and the Management Company shall not be liable for damages due to Swedish or foreign statutes, measures taken by Swedish or foreign authorities, event of war, strike, blockade, boycott, lockout or other similar circumstances. The reservation concerning strike, blockade, boycott, and lockout also applies if the Depositary and/or Management Company is subject to or takes such conflict measures.

Other damages sustained by the fund unit holder shall not be compensated by the Depositary and/or Management Company unless the Depositary and/or Management Company willfully or negligently caused such damages. The Depositary and/or Management Company shall not be liable under any circumstance for indirect damages.

The Depositary/Management Company shall not be liable for damages resulting from a Swedish or foreign stock market or other market place, depository bank, central securities depository or other processor, clearinghouse, or other parties that provide comparable services. Nor shall the Custodian/Management Company be liable for damages resulting from a contractor retained by the Depositary/Management Company with due diligence or, with regard to the Depositary, that has been assigned by the Management Company. The aforementioned also applies to damages resulting from the insolvency of the organisations or contractors mentioned.

The Depositary is not liable for damages to the Management Company or fund unit holders in the fund that may arise as a consequence of restrictions on the right of disposition of securities that may be applied against the Depositary.

If obstacles exist that prevent the Depositary and/or the Management Company from effecting payments or taking other measures due to the circumstances mentioned in the sixth paragraph, the measures may be postponed until the obstacles have ceased. In the event of deferred payments, the Depositary/Management Company shall pay interest, if interest is promised, in accordance with the interest rate applicable on the due date. If interest is not promised, the Depositary or the Management Company is not obliged to pay interest at a higher rate of interest than that which is equivalent to the applicable reference rate set by the Swedish

Riksbank pursuant to §9 of the Interest Act (1975:635), supplemented by two percentage points for each occurrence.

If the Depositary and/or the Management Company, as a result of the circumstances mentioned in the sixth paragraph, are prevented from accepting payment, the Depositary and/or the Management Company has the right to interest only in accordance with those conditions that applied on the due date for that period during which the obstacle existed.

§ 17

Permitted investors, etc.

The fund targets the public with the following limitations. The fund does not target such investors whose subscription or fund unit holdings result in or present a risk for (i) violation of Swedish or foreign law or other regulations, (ii) the fund or the Management Company being subject to registration obligations or other measures that the fund or the Management Company would not otherwise be obliged to undertake, or (iii) the fund being subject to substantial costs that are not in the interest of the unit holders. The fund does not target physical persons residing in the U.S. or legal persons headquartered in the U.S. or other U.S. Persons (such as a U.S. Person as defined in the U.S. Regulation S of the Securities Act of 1933, in the version applicable at the relevant time). In the event the Management Company determines that an investor is not permitted to subscribe to or hold units in the fund in accordance with the limitations stated in this paragraph, the Management Company may refuse the subscription of units as well as redeem units without prior consent on behalf of the investor. Refer to the fund's Prospectus for additional information regarding permitted investors.
